---

### **WELCOME MESSAGE**

**By Prof Mohamed El-Far | Mansoura University | Egypt**

Dear colleagues

It is my pleasure to extend a warm welcome to join our conference under the title "3rd International Summit on Cell Science and Molecular Biology", which is going to be held in Rome (Italy) during November 9-11, 2026. The theme "Advancing life sciences through cell and molecular discoveries."

The conference is set to unite all scientists, academics, clinicians, professionals, as well as students, to convene and exchange insights on recent discoveries and research in cell sciences and molecular biology and its clinical applications. Besides, innovations and advancements at these various aspects. The conference agenda will focus on critical topics and mainly aimed the followings :

- To show and discuss novel research trends and strategies of technological innovations in cell sciences and molecular biology as well as their wider applications.
- Promotion of scientific collaboration as well as facilitating knowledge sharing between scientists, medical doctors and companies as an ultimate goal of our conference.

As Honorable Chairman we do welcome all of you to join our conference to be a part of shaping a better future in this great field.

You are all most welcome to join us in beautiful city Rome.
