

International Conference on Environmental science and green energy

13 - 15, November, 2023

**Courtyard by Marriott Paris Gare de
Lyon, Paris, France**

**Theme : Impact, excellence and beyond: Reframing the science-society relationship
with Earth and Environmental Science.**

About us

Mind Space Conferences is a platform that brings together various groups in society, such as Scholars and people from the scientific study & research community. It also serves students who are looking to learn more about science while being exposed at an early age to cutting-edge technology advances so they can be future innovators!

With our platform, Participants can expose their research in organized events for a global audience. You choose the topics of your seminars or conferences; we handle all aspects with accredited speakers on behalf of stakeholders who want their research publicized through this medium!

Our agile technology enables subscribers from diverse backgrounds such as subject matter experts (SMEs), researchers, etc., across many disciplines at any given time – academia works perfectly alongside industry too.

The participants will be able to share their thoughts and challenges with other peers, and brainstorm new ideas for innovation in any domain of interest. These sessions also help refresh memories by taking back years' worth of research inputs from previous topics discussed which can lead one towards figuring out what's next on the list! The engaging conversations may challenge people's opinions about current market trends as well provide insights into future market innovations expected within both business communities or specific industries.”

We at Mind Space this intelligent behaviour through our events which connect present-day problems with insights from expert researchers whose research

With a vision to create better worlds, we at Mind Space believe in connecting the present with the future. We provide insights on various topics including trends and challenges that may face our society today as well solutions for these problems through research studies by experts across various fields—allowing them not only to share what they know but also to work together towards finding new ways of tackling issues faced globally or locally!

It is a privilege to be able to connect with other like-minded individuals and share ideas that can positively impact the world we live in today. intellectual forums have been an important channel for research findings, innovations as well accountability between practitioners from all around the globe!

For decades now, we have seen Scientific seminars and conferences of the learned society help bring research findings to practitioners across this world. These gatherings provide an important channel for exchange between these individuals who work hard every day making changes within their own communities or countries as well as providing them accountability when it comes time to share what they've learned with others in similar fields so that together everyone can make more informed decisions about how best go forth into improving our lives today!

HIGHLIGHTS OF THE CONFERENCE :

CPD

CPD (Continuing Professional Development) Certificate will be issued at the conference venue.

Participation certificate will be provided at conference venue soft copies upon prior request.

CERTIFICATE

TRAVEL

We are delighted to sponsor all Speakers with a 25% travel subsidy (airfare).

We are delighted to sponsor 1-night accommodation with meals and refreshments for all Speakers.

ACCOMMODATION

SCIENTIFIC SESSIONS :

DAY 1

1. Environmental Microbiology
2. Agriculture and Horticulture
3. Environmental Pollution
4. Biodiversity
5. Earth Science
6. Bioenergy & Biofuels
7. Renewable And Non-Renewable Energy
8. Environmental Sustainability
9. Greenhouse Gases
10. Geothermal Energy
11. Water Resources
12. Biorenewable Chemicals
13. Sustainable Energy

DAY 2

14. Hydropower
15. Environmental Health
16. Wind Energy
17. Landscape Ecology
18. Solar Energy
19. Deforestation
20. Wastewater Management & Restoration
21. Global Warming
22. Environmental Technology
23. Climate Change
24. Soil Degradation
25. Pollution Control

DAY 3

26. Energy Efficiency
27. Renewable Resource
28. Hydroelectric Power
29. Environmental Issues
30. Recycling

CONFERENCE VENUE

**Courtyard by Marriott Paris Gare de
Lyon**

**Address : 209-211 Rue de Bercy, 75012
Paris, France**

Eiffel Tower

Arc de Triomphe

Palais Garnier

Louvre Museum
