

Tentative Program

International Conference on
**ENVIRONMENTAL SCIENCE &
GREEN ENERGY**

May 13 - 15, 2024, Paris, France

Program Day 1

Time : 09 : 20 Am - 09 : 50 Am

Title : Patterns of topsoil pollution and multi-endpoint toxicity in different industrial facilities

Giovanni Pagano
University of Naples Federico II
Italy

Time : 09 : 50 Am - 10 : 20 Am

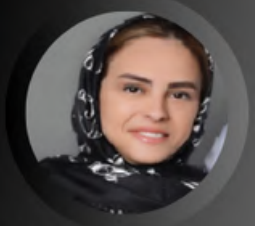

Title : Effect of the redox potential on the general corrosion behavior of industrial nuclear alloys

Raul B. Rebak
General Electric Research in
Schenectady, USA

Time : 11 : 10 Am - 11 : 40 Am

Title : Identification and Assessment of Sustainability Performance Indicators for Construction Projects

Sareh Rajabi
American University of Sharjah
UAE

Time : 10 : 20 Am - 10 : 50 Am

Title : Sustainable supply chain management: A key lever to mitigating climate change and increasing supply chain resiliences

Julius Eggert
EBS University , Germany

Time : 11 : 40 Am - 12 : 10 Pm

Title : Optimal Solar and wind energy cable pooling mix for enhancing grid transport capacity

Sander Mertens ,
Hague University of Technolog
Netherlands

Time : 12 : 10 Pm - 12 : 40 Pm

Title : Mitigation of dust on PV panels that operate light posts using a wind shield, mechanical vibrations and AN antistatic coating

Ramy Amir Shenouda
University in Cairo
Egypt

Time : 14 : 10 Pm - 14 : 40 Pm

Title : Dynamic time-frequency connectedness and risk spillover between geopolitical risks and natural resources

Wei qian Zhang
Sichuan University
Chinna

Time : 12 : 40 Pm - 13 : 10 Pm

Title : Utilisation of Woody Plants by the Cape Porcupine in Mesic Savannas in South Africa

Tlou Julius Tjelele
Agricultural Research Council
South Africa

Time : 14 : 40 Pm - 15 : 10 Pm

Title : Automated System for defect discrimination and grading in citrus fruits Presenting

Harvinder Singh
Sichuan Torrens University
Australia

Time : 15 : 10 Pm - 15 : 40 pm

Title : Examining the impacts of climate variabilities and land use change on hydrological responses of Awash River basin, Ethiopia

Addisalem Bitew Mitiku,
Ethiopian Construction Design and
Supervision Works Corporation, Ethiopia

Time : 15 : 40 pm - 16 : 10 Pm

Title : Greenhouse gas emissions and corporate social responsibility in USA: A comprehensive study using dynamic panel model

*Khaleeq Ahmad
University of Lahore
Pakistan*

Time : 16 : 30 Pm - 17 : 00 Pm

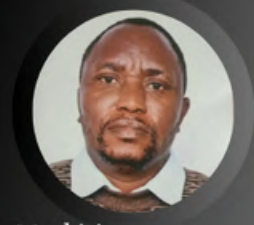

Title : Hormetic effects of Rare Earth Elements from inhibition/toxicity to stimulation

*Marco Trifuoggi
University of Naples Federico
II, Italy*

Time : 17 : 00 Pm - 17 : 30 Pm

Title : Wind and Solar Resource Complementarity and its Viability in Wind/PV Hybrid Energy Systems in Machakos, Kenya

*Kennedy Muchiri,
Jomo Kenyatta University of
Agriculture and Technology, Kenya*

Time : 17 : 30 Pm - 18 : 00 Pm

Title : Development of a new method for calculating greenhouse gas concentration using ultrasound

*Akitoshi Matsuda
Nishinippon Institute of
Technology, Japan*

Time : 18 : 00 Pm - 18 : 30 Pm

Title : Innovative Photovoltaics Configuration Arrays on Farm Land to Enhance Both Agricultural and Solar Energy Production on the Same Soil

*Arief S. Budiman,
Oregon Institute of Technology,
United States*

Speaker slot are available
