INTERNATIONAL CONFERENCE ON
IMMUNOLOGY AND VACCINATION

July 14-16, 2025 | London, UK
Mindspace Conferences is delighted to invite you to attend the “International Conference on Immunology and Vaccination” scheduled to be held in London, UK from July 14-16, 2025. The conference will focus on the theme of “Emerging Infectious Diseases and Vaccine Development.” and will feature quality sessions, case-based presentations, research assessments, and group discussions led by global researchers who are experts in providing practical tips for daily clinical practice and professional growth in the field of Immunology and Vaccination. The conference will cover a wide range of advanced research topics in Immunology and Vaccination, from basic to advanced, offering valuable insights into the latest advancements in the field. The detailed agenda of the Immunovaccine Conferences 2025 will include keynote presentations, oral sessions, panel discussions, poster presentations, workshops, symposiums, and a young researchers' forum, providing ample opportunities for learning, knowledge exchange, and networking. We look forward to welcoming you to this prestigious event and anticipate your valuable contribution to the discussions. Please kindly have a look at the tentative agenda for your reference. Thank you for considering our invitation, and we eagerly await your confirmation of attendance.

Thanks and Best Regards,
Immunovaccine Conference 2025
Organizing Committee Members

Scientific Session Day 1

- Immune system
- Vaccination
- Antibodies
- Immunotherapy
- Immunodeficiency
- Autoimmunity
- Inflammation
- Immunology techniques
- Immunogenetics
- Immune regulation and Immune memory

Scientific Session Day 2

- Infectious diseases and Public health
- Vaccine development and Adjuvants
- Immunomodulation and Immune evasion
- Epidemiology and Pathogens
- Aging and Neuroimmunology
- Cancer immunology
- Allergy and hypersensitivity
- Viral and Bacterial immunology
- Parasitic immunology
- Transplantation immunology

Scientific Session Day 3

- B cells and T cells
- Immunization
- Antibodies and Antigens
- Innate and Adaptive immunities
- Immunodeficiency and Immune tolerance
- Vaccine hesitancy and Epitopes
- Pathogens
- Immune correlates of protection
- Host-pathogen interactions
- Cytokines

About London, UK

London is the capital and largest city of England and the United Kingdom, located in southeastern England. It is a global hub for finance, commerce, culture, and tourism, and is one of the most cosmopolitan cities in the world, with a diverse population of over 9 million people. London has a rich history that spans over 2,000 years, and is home to many iconic landmarks, including Buckingham Palace, the Tower of London, and the Houses of Parliament. It is also known for its world-class museums, galleries, and performing arts venues, such as the British Museum, the National Gallery, and the Royal Opera House. The city is divided into 33 boroughs, each with its own unique character and attractions. Some of the most popular areas of London include the West End, known for its theaters, shopping, and nightlife; the South Bank, which is home to many cultural attractions and restaurants; and the City of London, the historic financial district. London is a major transportation hub, with five international airports, a comprehensive public transportation system, and a high-speed rail network that connects it to other cities in the UK and Europe. The city is also a popular destination for tourists, with over 19 million visitors annually. Despite its many attractions, London also faces a number of challenges, including traffic congestion, high housing costs, and air pollution. However, the city is committed to addressing these issues and has launched a number of initiatives aimed at improving quality of life for its residents and visitors.
